**Date:** 07 August 2013

Dear Mr Castello

**CONTROLLED WATERS LETTER AND FACTUAL REPORT ON GROUND INVESTIGATION**

**ISLES QUARRY, QUARRY HILL ROAD, BOROUGH GREEN, SEVENOAKS, KENT**

Thank you for providing the Controlled Waters Risk Assessment and Piling Risk Assessment for this site. The risk assessment relates to the site boundary indicated in the Phase 1 Report and the Isles Quarry, Borough Green, Phase 2 Report, written by BT&P Hyder, which were submitted with the planning application.

The recommendations and analysis of risks and liabilities detailed in the submitted risk assessments report are agreed in principle. We note that the use of band drains is specific to area 3. If band drains are required in the remaining areas then the risk assessment will need to be updated.

We are generally not in a position to visit the site and verify any works undertaken, therefore the above comments are based solely on the submitted documents and reported actions and no responsibility can be taken for the accuracy of any information submitted.

Please do not hesitate to contact me if you require any further information.

Yours sincerely

**Niall Connolly**  
**Planning Specialist**
